Background

The City owns numerous "properties in use" for operational purposes, parks, roads and community purposes. The City also owns properties that are being held for speculative (future considerations) purposes and surplus properties that may no longer be required by the City. Both properties in use and speculative properties are important community assets that can be used to achieve a variety of municipal objectives. Surplus properties can also be sold, leased or otherwise disposed of to create an important revenue source, yield new development, produce additional property tax revenues, facilitate creation of municipal assets and contribute to community development objectives.

The City staff administers all City real estate transactions and leases once approved by Council in the budgeting process or through a resolution. This work is administered through the Chief Administrative Officer and directed to the appropriate Manager. The City is in the process of developing a policy to guide the acquisition, disposition and leasing of City-owned land to maximize the financial returns and utilization of this resource to the benefit of the community.

Project Information

In order to enable Council to frame real estate decisions in the context of an overall real estate strategy, rather than as one-off considerations. Staff have identified seven (7) guiding principles for Council's consideration (these guiding principles will form part of the guideline criteria that the City will be using to evaluate this RFP):

1. City Policy Documents Considered First

At the highest level, the fundamental policy documents of the City will provide guidelines for the potential acquisition, disposition and leasing of City-owned lands. These documents include:

- The **Sustainable Community Plan**, which establishes long-range physical development goals and objectives and sets out municipal objectives on ensuring sustainability;
- The **Long-Term Financial Strategy**, which established long-range financial goals and objectives;
- The **Five-Year Financial Plan**, which includes identification of capital expenditures and proposed revenue sources;
- The **Annual Report**, which sets out municipal objectives, establishes measures and reports on progress;
- The **Corporate Strategic Plan**, as adopted by Council in January of 2011, which outlines Council's initiatives;
- The **Community First agreement**, which sets out municipal objectives in partnership with the Province of BC on strategically prioritizing Community and Economic development needs.

2. Open Process

The City, unless otherwise directed by Council, will publicly offer City-owned lands for sale or lease, through an Expression of Interest, Request for Proposal, or other public marketing efforts.

3. Revenue Generation and Job Creation

In order to maximize revenues and create more jobs, the City will:

- Sell or lease, whichever is most advantageous for the City, any lands that have been deemed surplus to the City's operational needs or have no broader community purpose.
- Lease any lands that are vacant but are being retained by the City for future operational needs.
- Not hold vacant, City-owned lands for unreasonable periods of time.

4. Speculation/Development

The City will not pursue land or develop its own lands on a speculative basis. The municipality's purpose under the *Community Charter* is to provide for "stewardship of the public assets of the community." The City also does not possess the financial depth and staff resources to speculate on acquisitions or development.

5. Acquisitions Through Rezoning

The City will attempt to secure private lands of interest first through rezoning applications.

6. Secondary Benefits to Disposing

The City will also consider disposing of City-owned lands to create secondary benefits such as (1) catalyst to new development (2) attract a key industry (3) securing beneficial community services or facilities.

7. Support Community Groups

The City will continue to support community organizations by providing land at a nominal fee where the Council feels it supports their overall communities goals identified in the Strategic Plan, Sustainable Community Plan and other relevant plans.

Interested proponents must submit proposals marked "**Request for Proposal – Lease or Disposal of the Wildlife Hall Located at 7850 2nd St., Confidential – Do Not Open**", will be received by **2:00 PM, local time on or before March 14, 2013**, at:

Proponents who wish to enter the lands to conduct investigation will be required to execute a letter of indemnity that relieves the City of any liability.

2.5 DUE DILLIGENCE

Each Proponent must completely satisfy themselves as to the exact nature and existing conditions of the property. Failure to do so will not relieve the successful Proponent of their obligation to carry out the provisions of the Agreement of Lease or Purchase of Sale resulting from this RFP.
