

THE CORPORATION OF THE CITY OF GRAND FORKS

BYLAW NO. 1540

A Bylaw to establish an **EMERGENCY PROGRAM** for the City of Grand Forks

=====

WHEREAS pursuant to Section 222 of the Municipal Act R.S.B.C. 1996, the Council of a Municipality may, by bylaw adopted by at least 2/3 of the Council members, declare that an emergency exists and exercise powers necessary to deal effectively with the emergency whenever the powers conferred on a Council are inadequate to deal with an emergency that is not an emergency within the meaning of the **EMERGENCY PROGRAM ACT, 1993**.

NOW THEREFORE, the Council of the Corporation of the City of Grand Forks, in open meeting assembled, **ENACTS**, as follows:

Title:

1. That this bylaw be cited, for all purposes, as the "Emergency Program Bylaw No. 1540, 1998".

Repeal of Existing Bylaw:

2. The Corporation of the City of Grand Forks Emergency Program Bylaw No. 1242, 1986, and all amendments thereto are hereby repealed.

General Provisions:

3. Attached as **Schedule "A"** to this Bylaw is the Emergency Program Plan for the Corporation of the City of Grand Forks.

Read a **FIRST** time this 6th day of April, 1998.

Read a **SECOND** time this 6th day of April, 1998.

Read a **THIRD** time this 6th day of April, 1998.

FINALLY ADOPTED this 20th day of April, 1998.

Brian Taylor - Mayor

J. Lynne Burch - City Clerk

CERTIFICATE

I hereby certify the foregoing to be a true and correct copy of Bylaw No. 1540 as passed by the Municipal Council of the Corporation of the City of Grand Forks on the 20th day of April, 1998.

Clerk of the Municipal Council of the Corporation
of the City of Grand Forks

RESPONSE - ACTION - NOTIFICATION

The receipt of emergency calls in Grand Forks take place via the emergency call receiving systems of the various agencies.

The RCMP system is answered at the local detachment during office hours and at the regional communications centre in Nelson whenever the local detachment is closed.

Fire/emergency calls are answered directly through any one of the five portable radios with a telephone answering machine as back-up. Fire phones are also located in four homes, the Fire Hall and City Hall.

The Provincial Ambulance Service has a central Dispatch Centre in Kamloops that handles all calls in the Interior.

It is the responsibility of each agency to notify others in the event of an emergency that is, or has the potential, of becoming a major disaster that will require the activation of the Grand Forks Municipal Area Emergency Plan.

The people or agencies listed below must be notified when the Grand Forks Municipal Area Emergency Plan is to be activated:

Fire Chief, Blair Macgregor	442-8266	442-7320	442-2582
N.C.O./I.C. R.C.M.P. Sgt. Lyle Burt	442-8288

City Administrator - Phil Taylor	442-8266	442-7340	442-0370

MAYOR's INTRODUCTION

Purpose:

The aim of this Emergency Plan for the City of Grand Forks is to provide for the preservation of life and property in the case of an emergency and to ensure that all functions of the City, as required, are applied to the emergency as an extension of their normal functions.

This plan will indicate the planning required by all Municipal Departments and supporting agencies in order to minimize the effects of a natural or man-made disaster on the persons or property of this City.

It is understood that this plan is not final, and that amendments and revisions will have to be made from time to time in the form of new sections or appendices.

Signed,

Brian Taylor, Mayor
City of Grand Forks

AIMS AND ASSUMPTIONS

Aim:

To coordinate all resources, facilities, personnel and the Emergency Program Organization existing in the Municipality, to deal with and minimize any emergency which could affect this Municipality.

Assumptions:

All emergencies likely to endanger lives and cause extensive property damage are, to a degree, unpredictable. Therefore, our assumptions are based on potential emergencies which could happen in our City and are used as a basis for the preparation of our Emergency Plan.

Municipal Assumptions:

This City may be subjected to the emergencies determined by hazard analysis and that planning and preparations should be made to cope with such emergency situations.

HAZARD ANALYSIS

An examination of the geographical and industrial makeup of our City, as outlined in the City map attached, reveals that planning and preparation are necessary to meet the following potential emergency situations:

Most likely to occur:

- Floods
- Forest Fires (rural area evacuated)
- Explosives and Bombs
- Dangerous Goods Incident
- Aircraft Crashes (not on airport)
- Industrial Emergencies
- Volcano Eruption (fall out)
- Major Urban Fire
- Public Utility Failure
- Extremes of Weather

Less likely to occur:

- Flash Floods
- Earthquake (locally)
- Mud Slide
- Avalanche
- Human Epidemic
- Civil Disturbance
- Animal and Plant Disease
- Drought (water shortage)
- Water Contamination
- Dam Failure (evacuees arrive from Castlegar/Trail area)
- Structural Collapse (bridge / building/ mine)
- Nuclear Accident (local or distant)

SCOPE

This Emergency Plan provides the framework for emergency prevention, response and recovery activities. All emergency plans of municipal departments, supporting agencies and the private sector shall form part of this plan.

From time to time special contingency plans may be issued under the Scope of this plan. They will detail functions and responses of special circumstances requiring greater detail than can be given treatment in this plan.

This plan provides for the concept of operations, organization and responsibilities, direction and control and coordination necessary to provide for effective response to any given emergency situation which may cause damage of sufficient severity and magnitude in this City to warrant execution of all or part of this plan.

CONCEPT OF OPERATIONS

Emergency Planning:

In normal times when emergencies pose no immediate threat to life and property, a variety of activities take place to ensure that when an emergency does strike, adverse impacts will be minimal. To develop and maintain a condition of readiness, numerous on-going activities are carried out in the areas of emergency planning, training and education of those entities assigned emergency related responsibilities.

Occurrence of Emergency Priorities:

When an emergency occurs, this City has the responsibility to maintain the health, safety and welfare of our population. The first priority of the emergency response is the preservation of life and secondly the protection of property.

Response:

The primary provider of emergency response service rests with the Emergency Services outlined in this plan. The provision of these services is authorized by Provincial Acts and local Bylaws. The Emergency Program Executive Committee of City Council implement such statutes and bylaws by official resolution.

MUTUAL AID

If this City's capabilities to meet the need for emergency response services are likely to be exceeded, it may be necessary to call for assistance under our Mutual Aid contracts with the neighbouring municipalities of the Rural Protection Fire Department and Christina Lake Fire Department - signatories to lend assistance (see Annex K).

Provincial Support:

Should the threat of life and property exceed, or become likely to exceed, the capacity of this City and support from all mutual aid signatories fully utilizing the emergency response resources authorized under Emergency Statutes, the following procedures may be followed:

1. A local "state of emergency" may be declared by the Mayor or his designate under Bill 38 12(1).
2. This City will advise the Minister of Solicitor General by telegram that a state of emergency exists in the municipality and request Provincial Government assistance.
3. The Regional Zone Manager, P.E.P., will advise the Director, P.E.P. Victoria, of the needs of this City, and action may be taken to commit the resources of the Provincial Government as outlined in the Provincial Emergency Plan.
4. Grand Forks Municipal Area Coordinator will continue to have a shared responsibility with the Regional Zone Manager P.E.P. in the coordination of the Provincial Government resources in Emergency Operations.

Federal Assistance:

In the event that the Provincial Government is unable to meet all our needs, Federal Disaster Assistance may be requested. Requests for Federal assistance are made by the Provincial Government.

ORGANIZATION AND RESPONSIBILITIES

Each department and supporting agency forming part of the administration of this City has responsibilities to provide the service outlined. Responsibility for functions related to emergencies generally are detailed in Annexes to this plan. A chart depicting the organization of this City at the control level is also attached.

Each department and supporting agency charged with responsibility as outlined in this plan, is responsible for the development of an internal plan and will be required to respond to an emergency situation affecting this City. The internal plan shall detail the organization and coordination of the assets and services of the department or supporting agency to meet the emergency.

CITY DEPARTMENTAL EMERGENCY SERVICES RESPONSIBILITIES

Fire Department:

The City fire Department has the prime responsibility for the following:

- a) All operations involving suppression and control of fires, or other emergency situations, which threatens life or property that fall within the fire service response.
- b) The rescue of persons and protection of property from hazardous situations and rendering of immediate assistance where other aid is not immediately available.
- c) Containment and control of dangerous goods incidents.
- d) Taking whatever steps may be necessary, consistent with good fire protection practices, in cooperation with other agencies and services to resolve any dangerous emergent situation.

The City Fire Chief, or his Deputy, shall be designated Emergency Site Manager in emergency situations which fall within fire services response. By agreement with other service chiefs, he may be designated Emergency Site Manager in an emergency situation.

The Fire Chief or his Deputy may activate part or all of the Grand Forks Municipal Emergency Plan as provided in the Emergency Program Bylaw.

The City Fire Chief may make whatever arrangements are necessary with other agencies, public and private, to assist him in these tasks. Where practicable, such arrangements shall be formally concluded with the approval of City Council. (See Annex A)

EMERGENCY SERVICES RESPONSIBILITIES

Police Department:

Law enforcement activities are the responsibility of the local R.C.M.P. detachment. Other responsibilities in an emergency situation will include:

- a) Initiating an alert fan out upon receipt of a Regional Attack Warning system (RAWS) notification.
- b) Access control at and around an emergency site.
- c) Alerting persons endangered by the emergency and implementing evacuation orders.

The NCO/IC (Non Commissioned Officer In Charge) or his designated alternate, shall assume the role of Emergency Site Manager in emergency situations primarily within the sphere of operations of the Police function. By agreement with the other service chiefs, he may be designated as Emergency Site Manager in any other emergency situation.

The NCO/IC, or his designated alternate, may activate part or all of the provisions of the Grand Forks Municipal Emergency Plan as provided in the Emergency Program Bylaw.

The NCO/IC shall make prior arrangements with other agencies and individuals, public and private, to ensure the most effective utilization of available equipment, manpower and expertise in an emergency situation. (See Annex B).

EMERGENCY SERVICES RESPONSIBILITIES

Communications:

Responsibility for establishing an emergency communications network based upon the City's operational communications system rests with the Grand Forks Fire Chief.

He is responsible for ensuring that local communications plans make the most effective use of all the communications available within the City.

Such plans should include:

- a) The use of selected channels for local emergency use linking the emergency services involved.
- b) Provisions for dissemination of information to the news media for broadcast to the general public.
- c) Provision of a communications capability at the City's (EOC) Emergency Operating Centre. (See Annex C)

EMERGENCY SERVICES RESPONSIBILITIES

Transportation:

The Grand Forks Municipal Area Coordinator will develop plans for the utilization of all local transport assets to assist in an emergency. Such plans should include provisions for:

- a) Movement of large numbers of people in the event evacuation of all or part of the City is required.
- b) Transportation of emergency supplies.
- c) Relocation of animal herds.

(See Annex D)

EMERGENCY SERVICES RESPONSIBILITIES

Engineering:

The City's Outside Works Department will plan and coordinate the local engineering assets for use in an emergency.

The Outside Works Department shall be primarily responsible for the following:

- a) Directing and controlling the vehicles, equipment and manpower resources available to the Department.
- b) Debris and wreckage clearance at the emergency site.
- c) Restoration of public utilities such as water, electricity, sewer and roads.
- d) Provision and installation of flood water control structures and emergency pumping equipment.
- e) Inspection of buildings or other structures for safety and demolition, when necessary.
- f) Cooperation with other services by providing equipment and manpower necessary to control emergency situations.

The City Engineer, or his Deputy, shall assume the role of Emergency Site Manager in emergency situations, primarily within the normal sphere of operations of the public works function. By agreement with the other service chiefs, he may be designated as Emergency Site Manager in any emergency situation.

The City Superintendent, or his Deputy, may activate part or all of the provisions of the Grand Forks Municipal Emergency Plan as provided in the Emergency Program Bylaw.

EMERGENCY SERVICES RESPONSIBILITIES

Engineering cont'd:

The City Superintendent shall make prior arrangements with other agencies, public and private, to ensure the most effective utilization of available equipment, manpower and expertise should an emergency situation occur. Where practicable, such aid agreements shall formally conclude with the approval of City Council.

During an emergency, the City Superintendent may contract private companies or individuals to provide equipment and operators when necessary to supplement the City resources.

Prior to establishing emergency drinking water or sewage services, the City Superintendent shall consult with the Medical Health Office.

EMERGENCY SERVICES RESPONSIBILITIES

Health:

The City's Public Health Officer will develop plans to provide for public health services in the event of an emergency. He/she will determine whether or not the emergency is a threat to public health and will provide guidance and inspection concerning sanitation, sewage and sanitary waste disposal and water supply which may be affected by the emergency. Should it be required, he/she will also arrange for epidemic control and immunization programs.

(See Annex F)

EMERGENCY SERVICES RESPONSIBILITIES

Emergency Medical Services:

The Emergency Medical Services Coordinator of the City shall be responsible for the following:

- a) The provision of Emergency Medical Services in the event of an emergency. (E.M.S. includes the response of adequate, appropriately trained first aid, ambulance and medical personnel to the scene of an emergency situation to provide triage, first aid treatment and transport to hospital of those persons sick and injured.)
- b) Preparation of an inventory of EMS resources and personnel available for use in an emergency situation.
- c)

The EMS Coordinator, or his Deputy, shall assume the role of Emergency Site Manager in emergency situations primarily within the normal sphere of EMS operations. By agreement with the other service chiefs, he may be designated as Emergency Site Manager in any other emergency situation.

The EMS Coordinator, or his Deputy, may activate part or all of the provisions of the Grand Forks Municipal Emergency Plan as provided in the Emergency Program Bylaw.

The EMS Coordinator shall make prior arrangements with other agencies, public and private, to ensure the most effective utilization of available equipment, manpower and expertise should an emergency occur.

(See Annex F-1)

EMERGENCY SERVICES RESPONSIBILITIES

Supply:

The head of the City supply department is responsible for arranging for the maximum utilization of resources, including the availability of those of a specialized nature, needed during an emergency. He will keep an updated inventory of all such resources and arrange for their procurement and distribution on request. He will also plan for the borrowing, rental or purchase of additional emergency resources from local business in the event they are needed.

(See Annex H)

EMERGENCY SERVICES RESPONSIBILITIES

Public Information:

The Grand Forks Municipal Area Coordinator is responsible for arranging for the dissemination of public information. This includes releases of only accurate and timely information. Dissemination of information should use all media channels available for the purpose of personal safety, survival, advice regarding past, present, and potential crisis conditions; minimizing rumours and providing information on assistance available.

(See Annex C)

EMERGENCY SERVICES RESPONSIBILITIES

Search & Rescue:

The Grand Forks Municipal Coordinator is responsible for arranging for provision of a Search & Rescue capability in the City.

Arrangements will be made for the training and education of professional and volunteer rescue personnel and for the deployment of composite units of rescue personnel.

(See Annex J)

COORDINATION

The Grand Forks Municipal Area Coordinator shall have the direct responsibility for the organization and administration for this City's arrangements for emergency response, subject to the direction of the City's Executive Committee.

The Grand Forks Municipal Area Coordinator shall have the overall responsibility for the coordination of activities taken to prevent, respond and recover from an emergency or imminent threat thereof.

The Grand Forks Municipal Area Coordinator, or his designate, may activate part or all of the provisions of the Grand Forks Municipal Emergency Plan as provided in the Emergency Plan Bylaw.

The Grand Forks Municipal Area Coordinator is responsible for coordination between emergency response agencies. Each agency with emergency responsibilities (eg. fire, police, hospital, etc.) shall appoint a Liaison Officer who is the primary point of contact for the Grand Forks Municipal Area Coordinator.

The Grand Forks Municipal Area Coordinator will establish an Emergency operation Centre (EOC) where reasonable space will be made available for emergency staff charged with coordination and liaison between agencies with emergency responsibilities. Operating procedures should be developed and maintained as to ensure that the EOC is adequately staffed and equipped to be immediately available in time of need.

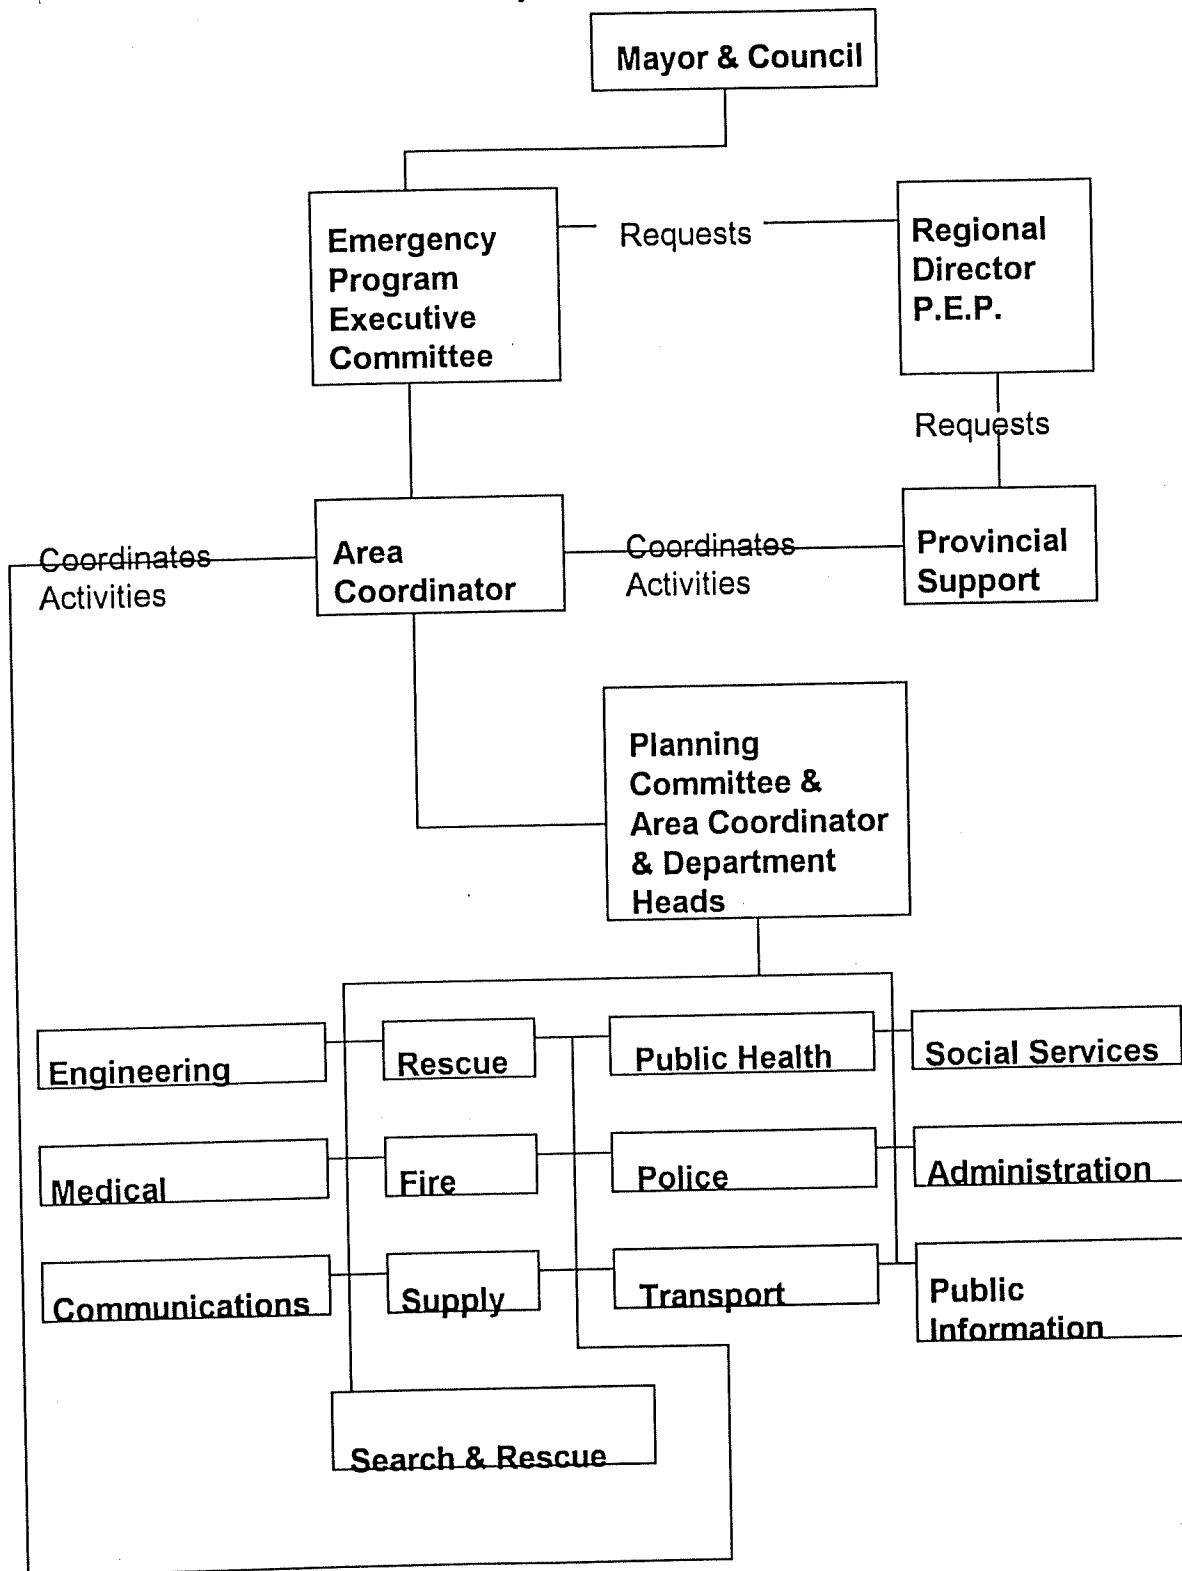

The EOC should be equipped with those information display materials, communications and any additional supporting equipment, materials and

COORDINATION Cont'd:

supplies required to ensure efficient operations and effective emergency management on a 24 hour per day basis. In addition, power generation capabilities and other such special facilities to allow continuous operations apart from normal public utilities and services that may be installed.

The EOC will be equipped, activated and staffed as specified in Departmental Emergency Plans.

Emergency Program Plan
City of Grand Forks

EMERGENCY ALERT PROCEDURE

When an emergency declaration is made in accordance with the Emergency Program Bylaw:

A notification fan out of those services required in support of the operation will be initiated in accordance with the sequence defined under RESPONSE - ACTION - NOTIFICATION.

Unless specific directions are given, those receiving an emergency alert notification, shall proceed to warn their personnel, prepare their equipment and remain on standby pending further instruction.

When determined by the Emergency Command Group that the emergency has been terminated, the Mayor or his designate, shall make an official declaration to this effect.

The Grand Forks Municipal Area Coordinator shall ensure that all personnel, agencies and the news media are advised.

RESPONSE - ACTION - NOTIFICATION

The receipt of emergency calls in Grand Forks take place via the emergency call receiving systems of the various agencies.

The RCMP system is answered at the local detachment during office hours and at the regional communications centre in Nelson whenever the local detachment is closed.

Fire/emergency calls are answered directly through any one of the five portable radios with a telephone answering machine as back-up. Fire phones are also located in five homes.

The Provincial Ambulance Service has a central Dispatch Centre in Kamloops that handles all calls in the Interior.

It is the responsibility of each agency to notify others in the event of an emergency that is, or has the potential, of becoming a major disaster that will require the activation of the Grand Forks Municipal Area Emergency Plan.

The people or agencies listed below must be notified when the Grand Forks Municipal Area Emergency Plan is to be activated:

Fire Chief, Blair Macgregor	442-8266	442-7320	442-2582
N.C.O./I.C. R.C.M.P. Sgt. Lyle Burt	442-8288		
Ambulance Unit Officer	442-2022		442-
Municipal Area Coordinator, Blair Macgregor	442-8266	442-7320	442-2582
City Superintendent, Ken McKinnon	442-8266	442-7310	442-8300
Mayor Brian Taylor	442-0212	442-7557	442-5166
Protective Services Chair - Steve Burt	442-8266	442-2562	442-5333
Health & Welfare Chair- Cherie Chursinoff	442-8266	442-2346	442-5531
City Administrator - Phil Taylor	442-8266	442-7340	442-0370

ESTABLISHMENT OF COMMAND HIERARCHY

Normally the **Service Chief** (police, fire, public works) responding to an emergency shall establish procedures for coordination with each other, according to the nature of the emergency. When considered necessary, one of the Service Chief's shall be designated as **Commander** of the response action. (**Emergency Site Manager**) This will usually be determined by the primary nature of the emergency but in the event of a dispute, the Commander shall be designated by order of the Mayor or his designate. The Commander shall then assume responsibility for the direction of operations at the emergency site.

In the event of a **major emergency or disaster** being declared under the provisions of the Emergency Bylaw, the **Emergency Command Group (ECG)** shall assemble and be established at the **Emergency Operations Centre (EOC)**.

The Emergency Command Group shall comprise of the following, or their alternates:

- The Executive Committee
- The City Administrator
- The Senior RCMP Officer
- The City Superintendent
- The Grand Forks Municipal Area Coordinator/Fire Chief

Where appropriate, the Heads of other agencies or groups may be invited to join the E.C.G. The E.C.G. shall assume responsibility for the overall coordination and direction of the response actions. The E.C.G. will operate in support of the Emergency Site Manager and will arrange for the resources necessary to control the emergency.

The **Mayor** shall be the **Operations Commander** for the E.C.G. The Executive Committee may appoint an alternate person or Operations Commander.

The resource services, agencies or officials appended to this Plan shall operate in support of the E.C.G. as and when required and as notified by the Operations Commander.

RESPONSIBILITIES OF EMERGENCY COMMAND GROUP

On the event of a major emergency or disaster being declared under the provisions of the Emergency Plan Bylaw, the **Emergency Command Group** are brought together in the **Emergency Operations Centre**.

The Emergency Command Group shall:

Assume responsibility for the overall coordination and direction of the response action and resources necessary to control the emergency. Which may include:

- The appointment of an Emergency Site Manager(s).
- Direction of Municipal departments and other agencies or resource groups in their actions in controlling the emergency.
- The establishing of marshalling areas for the assembly of manpower and equipment.
- Evacuation notification providing for evacuation advice to people in designated buildings or areas within the Municipality that are considered in danger.
- Dispersal of all persons not directly involved in the emergency operations who may be in danger or may hinder in any way the efficient functioning of the emergency response operations.
- Request expenditure of Municipal funds necessary to expedite control of the emergency.
- The discontinuance of any service, without warning, where continuance of such service constitutes a hazard to public safety.

FINANCIAL MANAGEMENT

Expenditures to meet major emergency situations are not normally included in the budgeting process of the City. Therefore, the City will provide financial support to meet the emergency situation in the first instance, as provided for in the Bylaw. In the event that the emergency situation reaches such proportions so as to exceed the financial capability of the City, requests for financial assistance may be made to the Provincial Government through the Regional Zone Manager of the Provincial Emergency Program.

ANNEX "K"
EMERGENCY SERVICE PLAN
MUTUAL AID AGREEMENTS

This Agreement is made as of the 10 th day of September, 1988.

BETWEEN :

The Corporation of the CITY of GRAND FORKS
of 420 Market Avenue, P. O. Box 220
in the City of Grand Forks, in the
Province of British Columbia,

(hereinafter called "the City")

of the First Part

and

GRAND FORKS RURAL FIRE PROTECTION DISTRICT
of R. R. #1, Grand Forks, in the Province
of British Columbia,

(hereinafter called "the District")

of the Second Part

WHEREAS it is possible that the occurrence of a major fire, hazardous material emergency or the occurrence of simultaneous emergencies may require fire fighting facilities beyond what is available in each of the noted Fire Departments:

NOW THIS AGREEMENT WITNESSETH THAT, in consideration of the permission, consent, covenants and agreements hereinafter contained, the parties mutually covenant and agree as follows:

1. Assistance by the City of Grand Forks Fire Department in fighting a fire or attending an emergency in the Rural Grand Forks Fire Protection District shall be given only at the request of the Chief of the Rural Grand Forks Fire Department or in his absence by his duly appointed acting Chief Fire Officer.

conversely

2. Assistance by the Rural Grand Forks Fire Department in fighting a fire or attending an emergency in the City of Grand Forks shall be given only at the request of the Chief of the City of Grand Forks Fire Department or in his absence by his duly appointed acting Chief Fire Officer.
3. The Chief Fire Officer making the request shall specify the type of assistance required.
4. Provision of fire fighting equipment at the request of the Chief Fire Officer shall not be such that the initial coverage area is left void of fire fighting apparatus and manpower and

MUTUAL AID AGREEMENT - September 10th, 1988

thus invalidate its responsibility to its citizens and the Insurance Underwriters.

5. A chain of command shall be respected whereby the Chief Fire Officer making the request shall remain in complete charge of the scene but under his command the officer in charge of the responding department will direct the fire fighters of that responding department.
6. Each fire department shall maintain liability insurance, vehicle insurance and Workers' Compensation for its own personnel whether fighting fire inside or outside of their respective fire district boundaries.
7. It is agreed that no financial remuneration shall be afforded to the responding fire departments within this Agreement.

IN WITNESS WHEREOF the parties hereto have caused these presents to be duly executed the day and year first above written.

ANNEX "L"
EMERGENCY SERVICE PLAN
FLOOD CONTROL

In the event of threat of high water, an E.O.C. (Emergency Coordination Centre) will be set up at the City Fire Hall. Hours of operation will be determined by the level of the emergency.

Sand and sand bags will be stock-piled at the City Works Yard. A minimum of 5,000 sand bags shall be kept on hand at all time.

In the event of major flooding of the downtown business core, a temporary dike will be built from the Selkirk College building, through the alley behind Tak's Furniture, to 2nd Street and along 2nd Street to the Central Avenue bridge. (See map).

The Ruckle area will require pumps to keep seepage water to a controlled level. Pumps are to be installed on the dike at the 68th Avenue bridge.

The Sewage Treatment Plant will be shut down and sewage will be re-routed to the sewage lagoon. The sewage lift stations are to be monitored hourly during extreme high water.
