Mayor and Council help celebrate opening of MAAP's on November 26th

Mayor Taylor and Council would like to congratulate MAAP's on its grand opening this past weekend. Council and Mayor Taylor were in attendance to show their support of the program. Until recently, with the collaborative efforts of the Whispers of Hope, Habitat for Humanity and BETHS, there was a gap in the services that the community was able to provide to those at risk.

The City is proud to have such a dedicated and creative group of individuals who put their heads together to find a solution to the ongoing issue of homelessness in Grand Forks.
